OVERVIEW

Compaq TaskSmart W2200 web servers offer the fastest, easiest way to build and grow web-hosting services. The TaskSmart W2200 is the first in a family of internet ready hosting appliances enables you to instantly and painlessly set up and administer web sites. The TaskSmart W2200 web appliances are engineered for a single purpose resulting in performance optimization, dependability and manageability. The TaskSmart W2200 server comes with all the software and hardware necessary in one integrated, optimized and tuned package for fast and easy deployment. With 3 rack-model web appliance servers, it is valuable to address the customer reach, particularly at the lower price points for SP. The TaskSmart W2200 delivers exceptional performance in a rack-optimized form factor, providing the most efficient use of space. The solution is pre-configured for optimal performance right out of the box, minimizing the amount of setup and tuning time and resources required.

KEY BENEFITS

- **Allows web-hosting providers to access business opportunities faster and provide superior service to customers who demand short time-to-implementation**
  - Pre-configured and tested systems that allow immediate out-of-the-box installation with exactly the right software for your web solutions
  - TaskSmart RapidLaunch remotely activates the appliance and launches clear easy configuration menus
  - Unique tool automatically optimizes the server by selecting from pre-defined workload profiles
  - Easy to navigate menus allow set-up of one or multiple hosts directly from your browser

- **Industry's best data center class management provides control and operational savings in dynamic web serving environments**
  - Only web-hosting appliance that allows the advanced system management of large volumes of web servers with proactive alerts and reporting tools manageable from anywhere, anytime, with integrated, lights-out capability
  - Empower your customers and users with secure, browser-based administration
  - Save time and money on system administration by giving users and web masters easy to administer menus
  - Complete software updates delivered globally

- **Allows you to economically create scalable solutions for your customers within your existing web-hosting infrastructure**
  - Common management tools and interfaces allow seamless integration into a standard web hosting environment
  - Built upon industry standards for outstanding price/performance
  - Global availability and support wherever you're hosting your sites
  - Linux®/Apache® web server with intuitive GUI provides "recognize and select" rather than "remember and type" administration making the most efficient use of valuable personnel resources
  - Open software platform lets you take advantage of your own Linux tools to integrate into any environment

- **Warranty and extended support services**
  - Unparalleled 3/3/3 warranty on both hardware and software – the TaskSmart W-Series warranty on software is unique in the appliance server arena.
  - Compaq *Insight Manager*™ provides the pre-failure warranty, which minimizes down time by detecting a failing part and ordering a replacement before it goes out.
  - *CarePaq*™ Services for the TaskSmart W-Series servers offer a fixed price "easy-to-use, easy-to-buy" option for extending the duration of the warranty and enhancing the warranty coverage to include 4-hour on-site response. Flexible and comprehensive enough to meet the support needs of a full range of environments.
  - *ActiveAnswers*™ provides a dynamic set of tools and information to help you plan, deploy and operate a Compaq web appliance within your environment.

COMPAQ

SPECIFICATIONS

Product	**TaskSmart W-series, Model 30** *227952-001 (U.S.)* *222952-421 (Int'l)*	
	Configuration	• 1U Rack Form Factor • One Intel® Pentium® III 933-MHz processor FC-PGA (Flip Chip-Pin Grid Array) • Two Compaq NC3163 Fast Ethernet NIC Embedded 10/100 WOL (Wake On LAN) • 256-MB Memory PC133-MHz Registered ECC SDRAM • Two 18.2-GB Wide Ultra3 SCSI 10,000 rpm hard disks (for operating system) • Removable CD/Floppy • Compaq *Remote Insight* Lights-Out Edition • Pre-configured with operating system and file serving software, systems and software management utilities and integrated graphical user interface
Product	**TaskSmart W-series, Model 20** *222864-001 (U.S.)* *222864-421 (Int'l)*	
	Configuration	• 1U Rack Form Factor • One Intel Pentium III 933-MHz processor FC-PGA (Flip Chip-Pin Grid Array) • Two Compaq NC3163 Fast Ethernet NIC Embedded 10/100 WOL (Wake On LAN) • 256-MB Memory PC133-MHz Registered ECC SDRAM • Two 18.2-GB Wide Ultra3 SCSI 10,000 rpm hard disks (for operating system) • Removable CD/Floppy • Pre-configured with operating system and file serving software, systems and software management utilities and integrated graphical user interface
